ASTONDOA 377 COUPE · 592.311 € (VAT included)

Astondoa 377 Coupe - Demo unit in impeccable condition

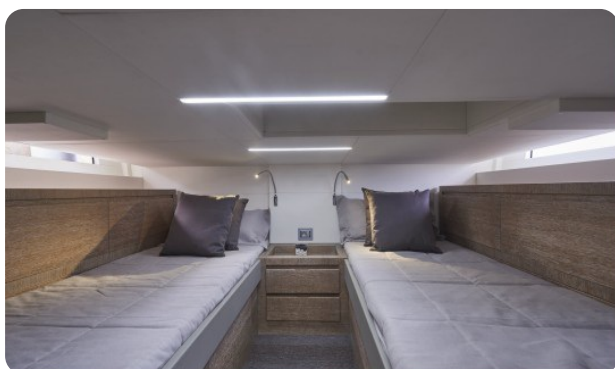

Some boats simply turn heads, and the Astondoa 377 Coupe is one of them. Its lines are unmistakable: the coupe profile from this Spanish shipyard combines presence on the water with an elegance that needs no excess.

Below deck, this unit is fitted with two Volvo Penta D4-320 DPI engines, each delivering 320 hp - more than enough propulsion for those who value both cruising pleasure and responsive performance when more is required. Navigation is managed with latest-generation Volvo electronics and a manoeuvring joystick, making harbour manoeuvres genuinely simple.

The interior stands out for its natural oak finishes and grey upholstery, with a main double cabin, a head with separate shower and an aft storage or rest area. Every space is well used, without compromising comfort on weekend passages.

On deck, the space is designed to be enjoyed: a large sunpad, teak bathing platform, aft shower, outdoor galley area and helm seats upholstered in Silvertex. The hardtop with LED lighting and electric anchoring system complete equipment that leaves nothing to chance.

This is a demo unit ready to sail, with immediate delivery and no waiting for a factory order. A clear opportunity for anyone looking for a complete premium yacht with a character of its own.
